

# MODEL RECOGNITION MANUAL

# Foreword

This Recognition Manual has been issued in order to provide the dealers with enough information to distinguish one model from another when a motorcycle is brought to the dealer for troubleshooting or repair. All motorcycles exported from 1963 on and those produced at Lincoln Factory in U.S.A. are listed in order of nominal engine displacement. Under each engine size, further classification is by model and year. Charts in the rear of the manual give production years and export area information.

## 1. Photographs

Since the photographs show the standard exported motorcycles, there may be minor difference in appearance between the picture and the actual motorcycle. For example, the motorcycle exported to some countries may have a different handlebar or fender, or may have no turn signal lights, reflectors or seat band.

## 2. Nicknames

The nickname of the model is given in parentheses. Some models are most often called by the nickname.

## 3. Model Year

The model year under the model code shows the approximate year of production.

## 4. Specifications

Major specifications, spark plug type, and tire size are given for the first year of the model, and apply to all the other years unless changes are noted. However, the maximum horsepower figure shows the horsepower of the latest model, and the spark plug type has been updated if the old type is no longer available (Ex. B7H and B7HCS are now B7HS). Refer to the Service Handbooks for further specifications.

## 5. Color

Color is one of the most effective means of recognizing the model. Colors of the fuel tank and front fender are given for this identification. When ordering the painted parts, be sure to include the color code from the Parts Catalogue.

## 6. Engine and Frame Numbers

Engine and Frame Numbers along with the prefix will give you positive identification. The " ~ " mark following an engine/frame number indicates that the number shown is the first number used for that model and year (Ex: G4E077300~ ). Zeros at the end of the number show how many digits you can expect to find (Ex: G7E500000).

## 7. Part Numbers of the Parts Catalogue, Owner's Manual, and Shop Manual

These part numbers are given so that the correct Parts Catalogue or Manual will be used when servicing the motorcycle or ordering the parts. A circled letter ahead of the part number indicates that the catalogue or manual is available in the language of that country as well as in English. The letters stand for the following countries.

(A) Australia, (C) Taiwan, (D) Indonesia, (E) Europe, (F) France, (G) General export, (I) Italy, (L) Lincoln Factory, (N) England, (S) Spain, (T) Thailand, (U) U.S.A., (W) West Germany

A Parts Catalogue number followed by an "S" or "R" indicates that it is a revision or supplement, and must be used together with the basic parts catalogue.

## 8. Remarks

This gives you the features of the model, relationship to other models, or differences in appearance from other similar models.

## 9. Major Changes

Major changes from the previous year's model are given here for comparison.

M10/M11  
1966~1969

50 cc  
2-Stroke, 1 Cylinder  
Piston Valve  
3-Speed Rotary Shift  
Maximum Horsepower:  
4.5 HP @7,500 rpm  
Spark Plug: NGK B7HS  
Tire Size  
Front: 2.25-17 4PR  
Rear: 2.25-17 4PR

**Color**

Fuel Tank: Rocket Red, Black  
Front Fender: Same as fuel tank  
Engine No.: 700001~  
Frame No.: M10-00001~

Shop Manual No.: 99995-211 (SM-1)  
Remarks: First small capacity street bike. Engine mounted on the same frame as the 85 cc J1. The M11 is an M10 bored up 1 mm to 52 cc.

MT1 (Mini Trail)  
1971

75 cc  
2-Stroke, 1 Cylinder  
Piston Valve  
3-Speed Return Shift  
Maximum Horsepower:  
4.2 HP @6,500 rpm  
Spark Plug: NGK B7HS  
Tire Size  
Front: 3.50-8 2PR  
Rear: 3.50-8 2PR

**Color**

Fuel Tank: Lime Green  
Front Fender: Lime Green  
Engine No.: MTE00001~  
Frame No.: MT-00001~  
Parts Catalogue No.: 99995-123

Owner's Manual No.: 99995-327

Remarks: Can be identified by the compact styling and chunky tires. Has an automatic, centrifugal clutch. Fuel and oil tank vents can be shut, handlebar be folded when the motorcycle is being transported.

8 50 ~ 90 cc

Shop Manual No.: 99995-201 (SM-1)  
Major Changes: Color, marking, front fork, and  
seat.

(21)

GA3  
1969 ~ 1970

90 cc  
2-Stroke, 1 Cylinder  
Rotary Disc Valve  
5-Speed Return Shift  
Maximum Horsepower:  
10.5 HP @8,000 rpm  
Spark Plug: NGK B7HS  
Tire Size  
Front: 2.75-18 4PR  
Rear: 2.75-18 4PR

## Color

Fuel Tank: Pastel Orange  
Front Fender: Stainless steel  
Engine No.: GAE-200000  
Frame No.: GA-200000

Parts Catalogue No.: 99980-200  
Shop Manual No.: 99995-201 (SM-1)  
Remarks: Street scrambler version of the GA2  
with universal front tire, and upswept exhaust  
pipe.

(22)

G2S  
1974

90 cc  
2-Stroke, 1 Cylinder  
Rotary Disc Valve  
4-Speed Rotary Shift  
Maximum Horsepower:  
10 HP @7,500 rpm  
Spark Plug: NGK B8HS  
Tire Size  
Front: 2.50-18 4PR  
Rear: 2.50-18 4PR

## Color

Fuel Tank: Metallic Black, Candy Super Red,  
Candy Ocean Blue  
Front Fender: Stainless steel  
Engine No.: G8E-000000  
Frame No.: G8-000001~

Parts Catalogue No.: 99997-636  
Owner's Manual No.: 99997-830  
Shop Manual No.: Refer to the MC1 manual.  
Remarks: Developed version of the GA1A. Air  
cleaner has washable element.

18 50 ~ 90 cc

(23)

G2T  
1974 ~ 1976

90 cc  
2-Stroke, 1 Cylinder  
Rotary Disc Valve  
5-Speed Return Shift  
Maximum Horsepower:  
10 HP @ 7,500 rpm  
Spark Plug: NGK B8HS  
Tire Size  
Front: 2.50-18 4PR  
Rear: 2.50-18 4PR

Color

Fuel Tank: Metallic Black, Candy Super Red,  
Candy Ocean Blue  
Front Fender: Stainless steel  
Engine No.: G8E500000  
Frame No.: G8-500001 ~

Parts Catalogue No.: 99997-636  
Owner's Manual No.: 99997-830

Shop Manual No.: Refer to the MC1 manual.  
Remarks: Developed version of the GA2. Air  
cleaner has washable element. Similar in  
appearance to the G2S, but transmission and  
rear sprocket are different.
